FÜR DIE BEWEGUNGSKONTROLLE

## 100% MIT SOLARENERGIE ANGETRIEBEN

Die **Entwicklung** und die **Produktion** von Spindelhubgetrieben, Linearzylindern, ein/mehrachsige Servosysteme mit Software bedient, erfolgt in dem Betrieb von Borgaro Torinese, der mit spezielle Technologie und hochwertigen Maschinen ausgestattet ist.

**Engineering and production** of components such as: screw jacks, linear actuators and single/multi axis servosystems with software customizations, are made in the Borgaro plant (Turin) equipped with highly technological machinery.

Ein **Kompetenzzentrum** der **Mechatronik**, das kontinuierlich technologisch mit hoher Wertschöpfung modernisiert wird, für einen Markt, der nicht nur Produkte, sondern auch Lösungen erfordert.

A center of mechatronic application excellence, able to offer high added value solutions for a highly demanding market.

global  
in service

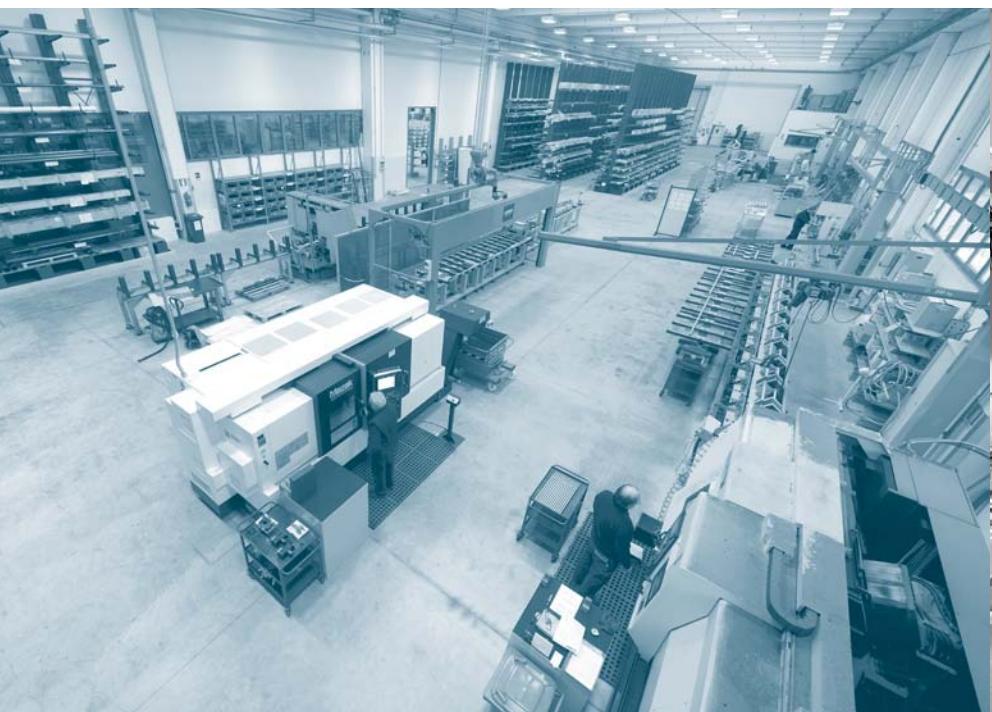

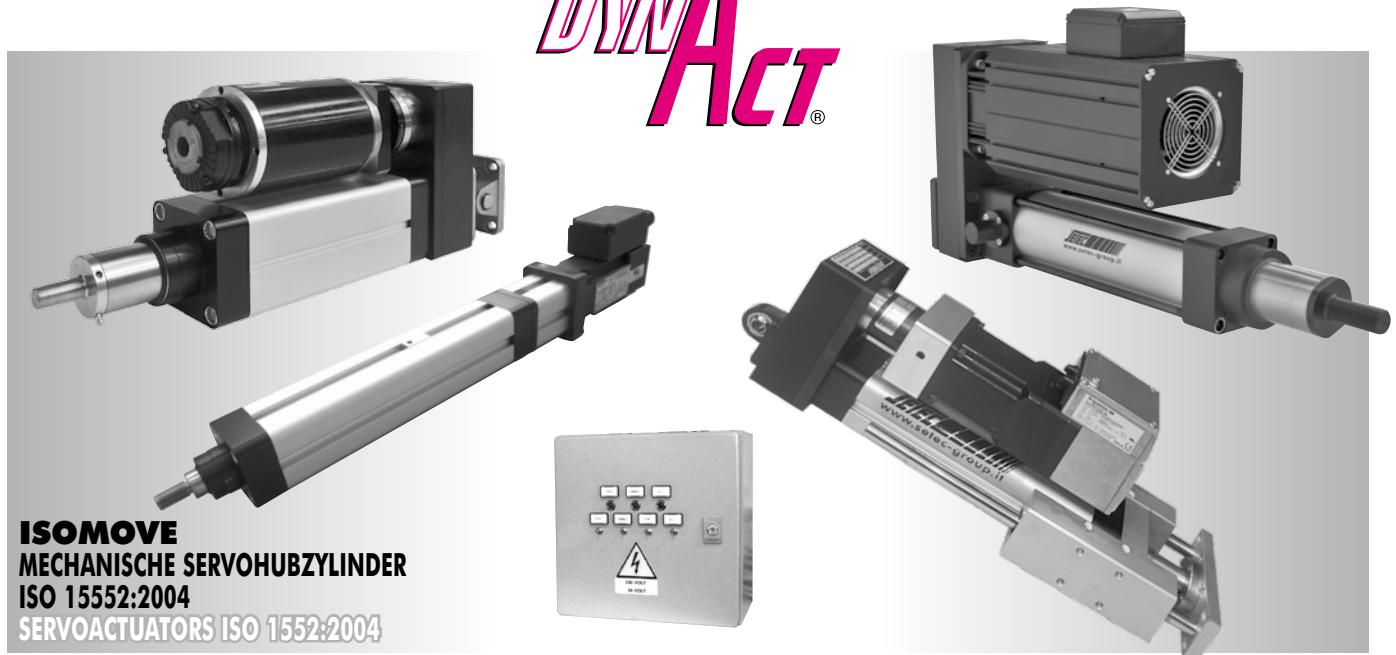

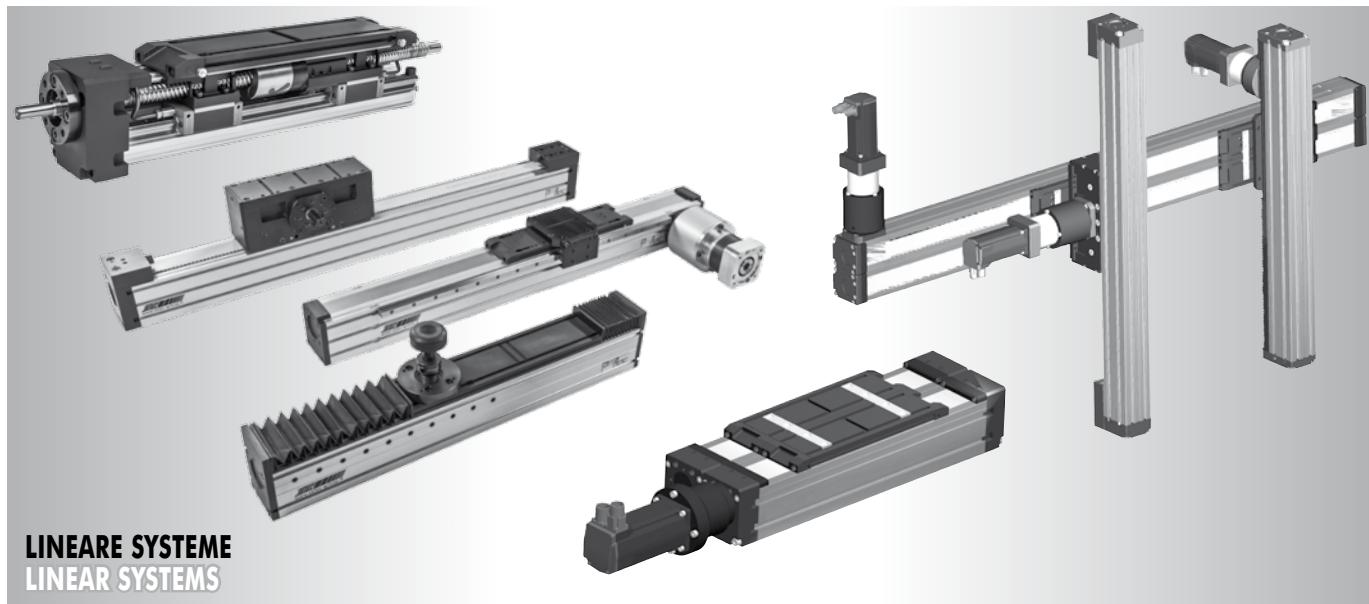

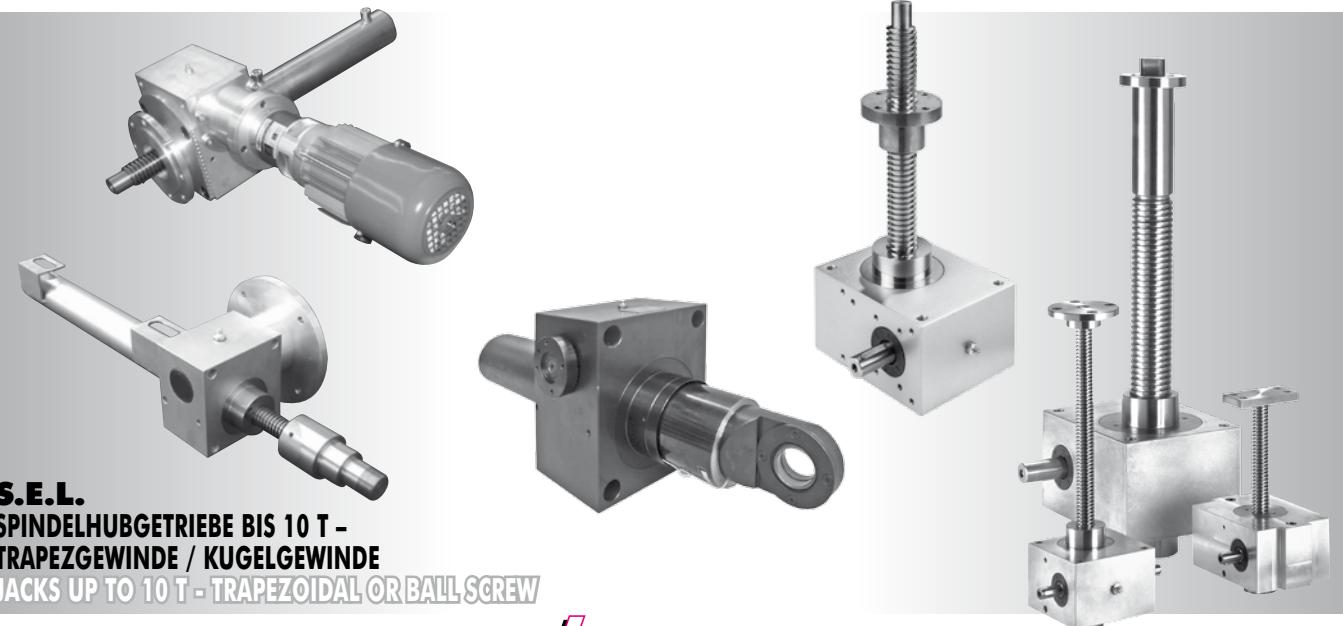

Die fünf **Niederlassungen in Turin, Mailand, Bologna, Padua und Florence**, via **Intranet und Voip-System** in Echtzeit verbunden, bieten einen effizienten National-Service an.  
Unsere internationale Präsenz ist durch ein **globales und gut organisiertes Vertriebsnetz**.

The five **Setec offices of Turin, Milan, Bologna, Padoa and Florence**, are linked through **intranet and Voip System** which ensures an integrated "real time" voice/data system. At the international level, we have a **broad well-organized distribution network**.

The logo for JEEC (Joint Energy Efficiency Council) features the letters "JEEC" in a bold, italicized, sans-serif font. A registered trademark symbol (®) is positioned above the "J". To the right of "JEEC" are five thick diagonal lines of varying lengths, creating a graphic element.

# System- Integrator

An aerial photograph of a modern industrial facility. The floor is a light grey concrete. Numerous workers in dark uniforms are scattered throughout the space, some standing near large pieces of machinery, others walking between workstations. The factory is characterized by its clean lines and organized layout, with various sections separated by metal partitions. In the background, tall shelving units and storage areas are visible under a high, multi-level ceiling with recessed lighting.

# Anwendungs Software

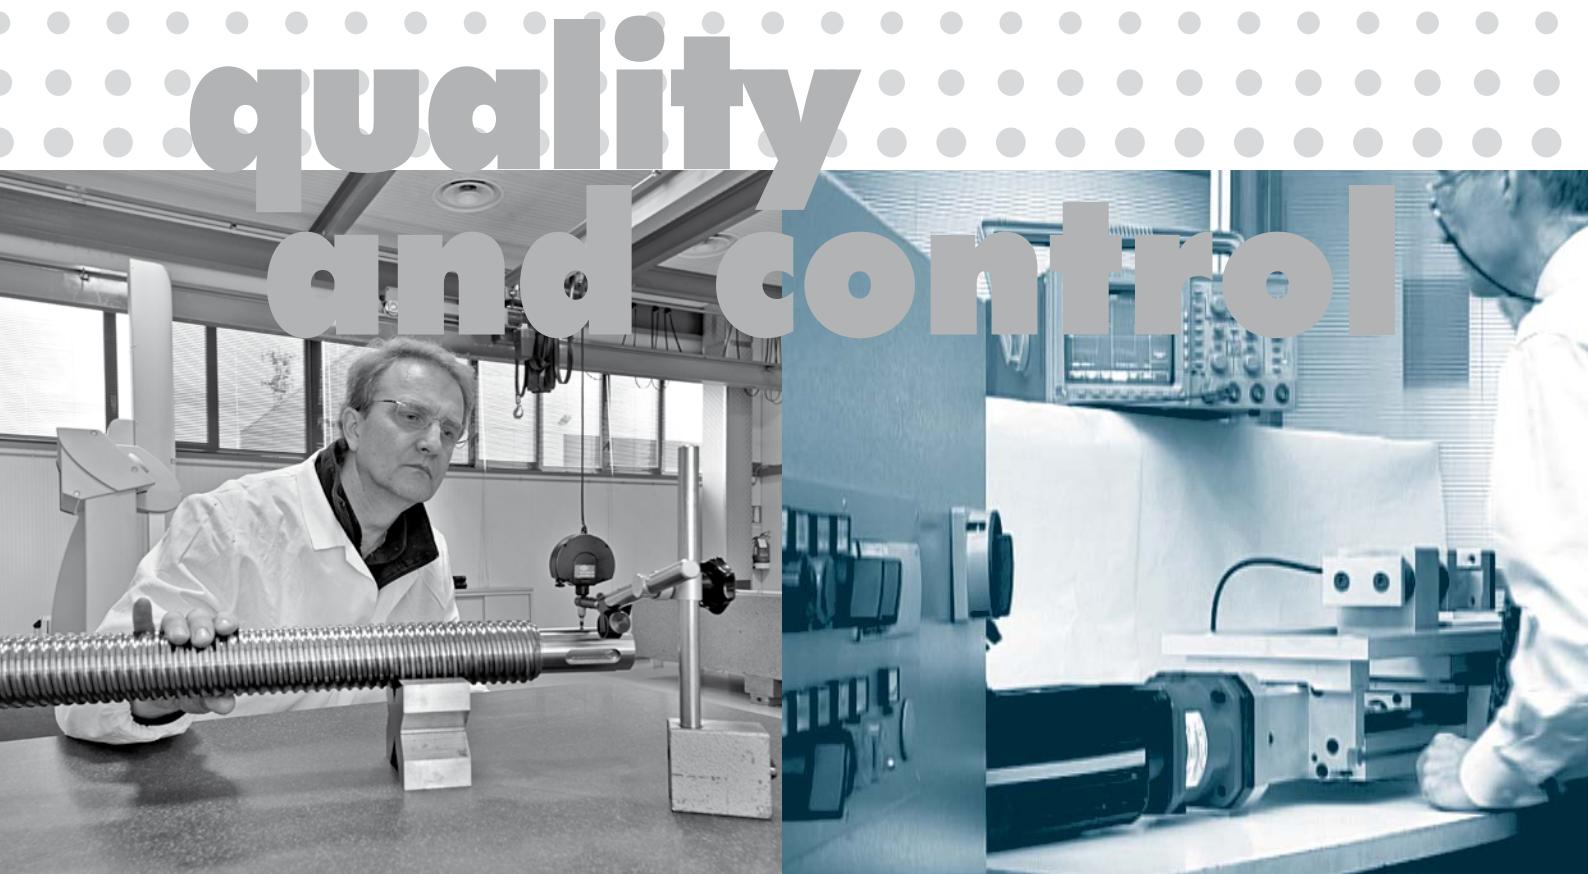

Spezielle und zertifizierte Messtische, in einer **hochentwickelten Messraum** (mit Entstaubung und thermo-hygrometrischer Kontrolle eingerichtet) eingerichtet, ermöglichen es uns jene wesentliche Qualitätseigenschaft in einer so komplexen und **multidisziplinären Technologie** wie Motion Control sicherzustellen.

Am Ende wird noch durch ein **MECHATRONIC APPLICATION CENTER** die Funktionalität der Teile und der Servosysteme überprüft.

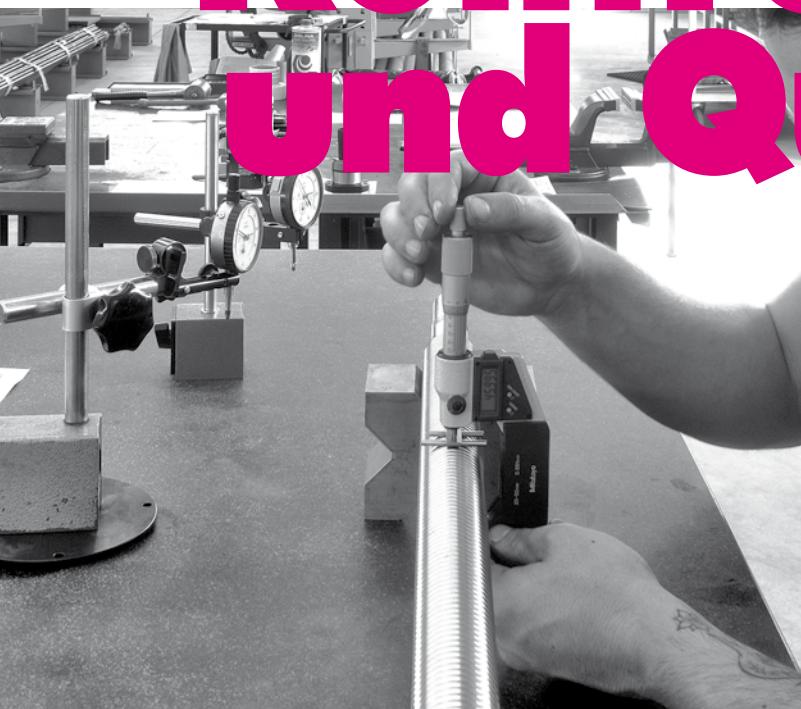

Specialized and certified measuring benches in a **SOPHISTICATED METROLOGY** (subject to hygrometric, temperature and dust checking) which allow us to guarantee that essential quality in a complex and **multidisciplinary technology** such as motion control.

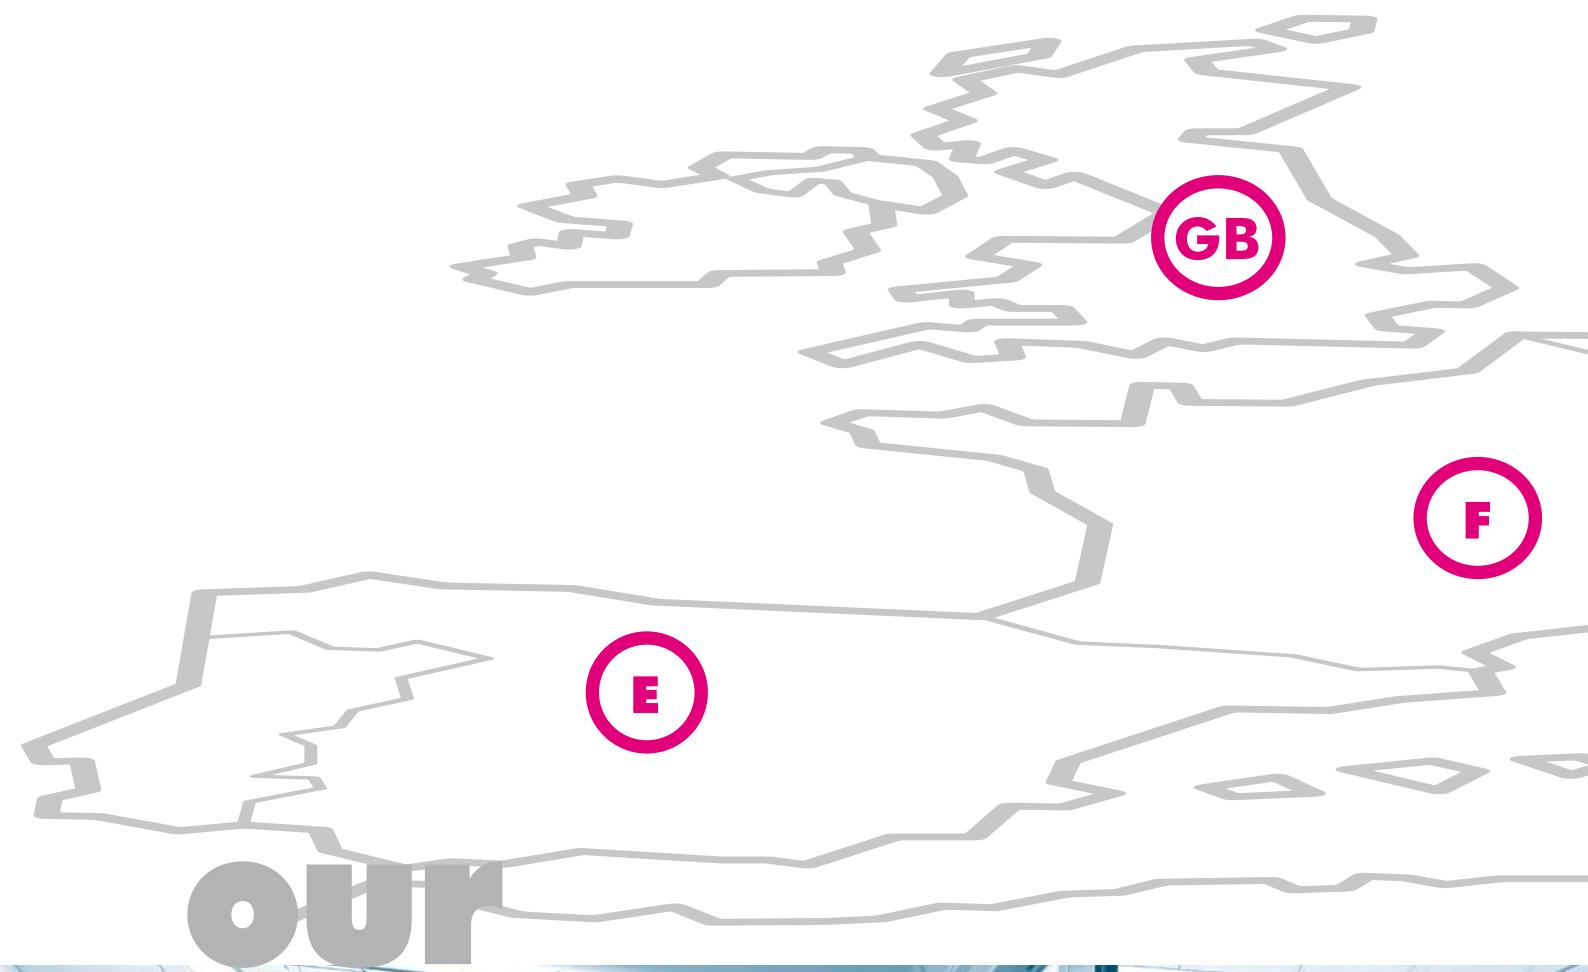

All this is completed by a **MECHATRONIC APPLICATION CENTER** which checks the functioning of both the components and the servosystems.
